CATALANO

Synonymous with innovation, quality and design. Catalano, synonymous with innovation, quality and design, is a leader in the ceramic bathroom furnishings sector. Founded in 1967 in Fabbrica di Roma, it is an Italian company with a solid industrial culture, which has been able to combine technology and automation with the craftsmanship cultivated in the area for generations.

FUTURE OF CERAMICS

Curved surfaces and thin edges give a light touch to this collection intended for homes that are refined and original. In the collection Green, design, material and function all come together in an intimate relationship where thickness and proportion give the products their formal coherence. With no overflow outlet, the seamless design of the basin ensures maximum hygiene.

A refined, minimalist, and contemporary environment where every detail contributes to a harmonious whole. Design characterized by their unmistakable square geometric matrix, an expression of Catalano's attention to detail and functionality. The slender thicknesses give the products character and lightness, enhancing the design of the basin.

The Venezia by Venini collection brings the magic of Murano glass into modern design. Crafted by the renowned Venini glassmakers, the handles reflect centuries of tradition in every vibrant hue and delicate gradient.

The warm tones of red and amber merge seamlessly, creating a piece that evokes the richness of Venetian heritage and the glow of hand-blown glass.

The circular shower head and slender controls echo the silhouette of mooring bollards, the very inspiration behind the design, translating the language of navigation into a gesture of quiet sophistication.

ACQUA ESSENZA: where the essence of water meets contemporary design. Bertrand Lejoly redefines essential functionality, transforming the bathroom experience into a daily ritual of style and harmony.

Our tale begun in 1946, with an initial mechanical business started by my father and uncle in Pella, on the shores of Lake Orta, and from which the taps and fittings factory then originated. A small business set in an area with an ancient vocation for metal and mechanical manufacturing that has gradually developed and become known throughout the world"

Italian Manufacturing, a beautiful story of the "Well Made in Italy".

Modular elegance, mirrored reflections.
Mondrian redefines bathroom architecture with
wall-mounted columns, open compartments and
exclusive faucet integrations.

falper.

Viaveneto Frame by Falper embodies the contemporary Nordic aesthetic, ethereal and elegant.

Be won over by the mix of fine materials that combines Canaletto Walnut striped wood with Brass handles.

MA is a bathroom system that blends architectural lightness and high functionality. It merges the formal rigor of architectural design with refined materials and functional versatility — ideal for both private and hospitality spaces.

A unique blend of tradition and modernity, perfect for spaces where elegance meets innovation.

antoniolupi

Bathrooms and wellness areas, both indoor and outdoor, are the spaces where you can relax and recharge your batteries, spaces that become "main" in the design of a holiday home of antoniolupi and the versatility and customisation potential of their collections. The bathrooms of Villa Apua are unique spaces, personalised for the users of each room, refined spaces that are both functional and contemplative, creating multiple views and connections with nature and the surrounding landscape.

SALVATORI

Natural stone in its most intimate form.
Our Home Collection accessories bring material,
function and quiet elegance into everyday spaces.

The cream-coloured honed Crema d'Orcia Aura flooring works to perfection with the Romboo wall texture, which adds depth and interest to the room, without detracting from the stunning view outside

Functionality and aesthetics meet in Salvatori's design approach. This living room is more than a mere functional space in the house. It's also a tranquil oasis that invites relaxation.

Italian Projects - Bologna
Soft tones and sculpted surfaces
create a refined dialogue between
architecture and material.

PERFECT WELLNESS

Perfect Wellness

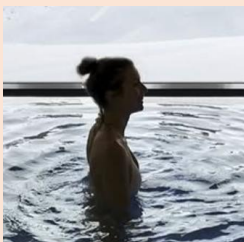

Effe's saunas, hammams and spas are designed to restore the body's natural rhythms, characterised by a special and delicate balance between heat and steam, scents and charms.

To get the most out of your steam experience, you should follow a sequence of steam bath, cold shower and rest. Ideally, you should start with a steam bath that lasts no more than 20 minutes. Then, when you come out, you can re-energise with a quick cold shower, which will help tone your tissues and restore balance to your whole body.

Sauna means heat, revitalisation and relaxation, not to mention aroma. The glazed ceramic heater of BodyLove S is the focal point of the sauna. It kindles our dreams and memories, releasing the soft, natural aroma of solid heat-treated wood.

relaxdesign®

Relax Design® is an Italian company specializing in the production of contemporary bathroom furnishings and accessories.

ARTELINEA

New elements & New Design

It is ideal for contemporary bathrooms seeking a strong, defined geometry, as well as for reinterpreted classic bathrooms looking for a sculptural, handcrafted effect.

ARTELINEA

Born from sand, glass takes shape in a washbasin that unites material purity and design precision. Transparent yet strong, it reflects light and enhances the essential geometries of the design.

We celebrates the extraordinary potential of glass, designed to endure and capable of transforming everyday rituals into moments of elegance.

GIACOBAZZI

It has always stood out for its ability to manage the entire production cycle of parquet flooring in-house, featuring a large showroom in Fiorano Modenese to guide you in choosing your floor.

The soft, sophisticated hue envelops the room with discreet elegance, creating a tactile backdrop that harmonizes beautifully with artwork, furnishings, and decorative details. In this design, the boiserie is more than just a wall covering; it is an architectural presence that enhances spatial perception, offering balance, warmth, and a refined aesthetic identity.

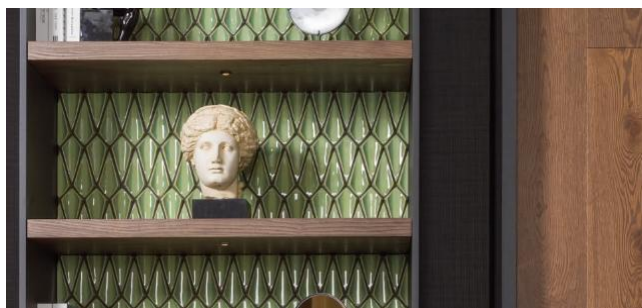

L'ANTIC COLONIAL

Walls are no longer just a backdrop. They define the atmosphere, add texture and bring a unique sense of character to a space. With its expressive pattern and layered texture, Skins Art Twister Metal creates a continuous visual narrative across the surface, adding depth, movement and a distinctive design language that elevates the entire interior.

Combining the shine of the glass it is made from with the burnt touch of its edges, collection offers a unique, elegant, and original decorative option that can be incorporated into any project.

PREMIUM MOSAICS

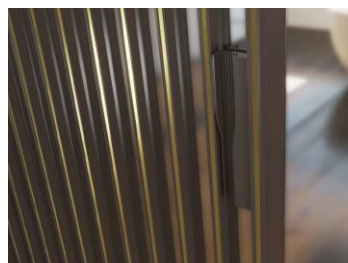

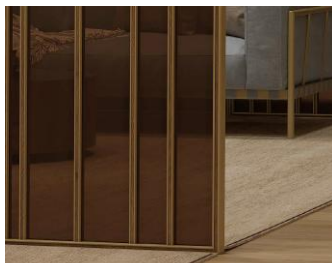

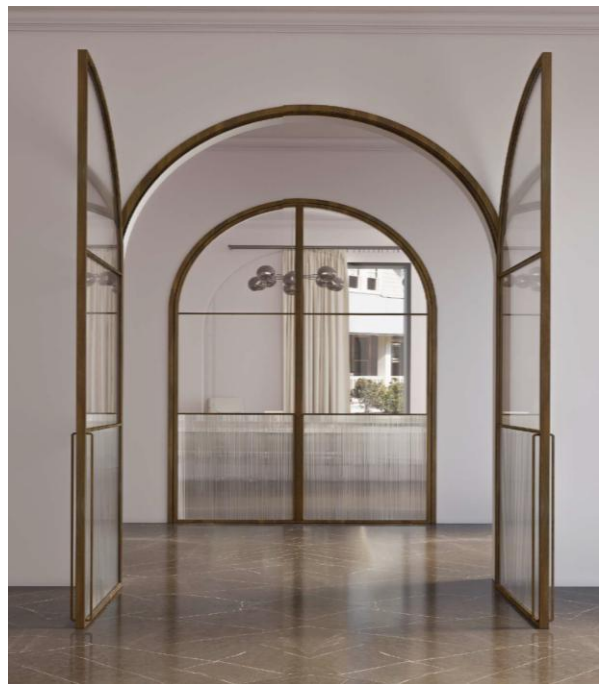

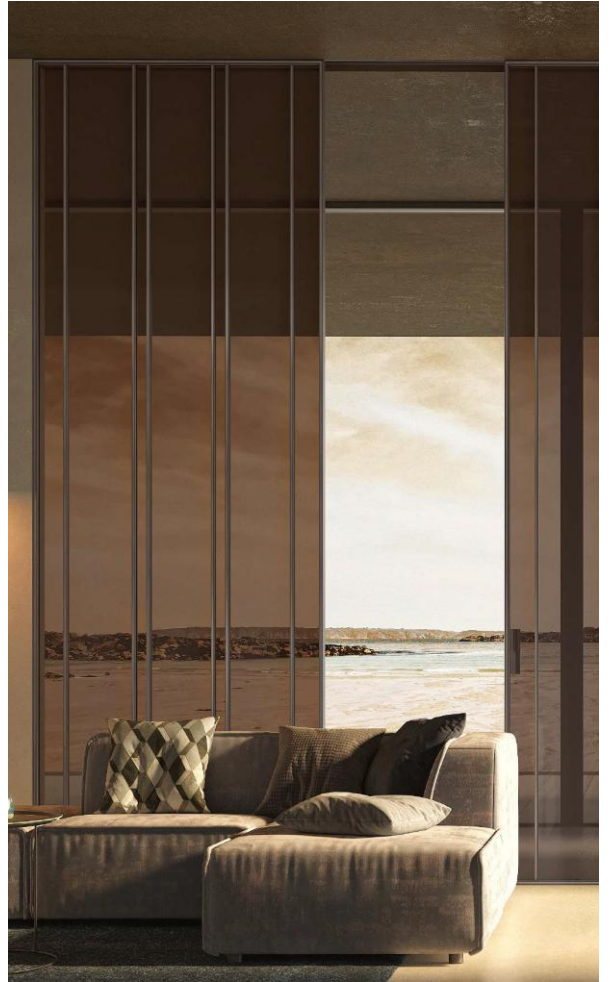

NUMAEX

Step into a world of illuminated luxury with our revolutionary shower enclosures. Illuminate your shower experience and elevate your daily routine.

As leaders in glass textures, we craft bespoke surfaces that redefine luxury and architectural expression. Glass is more than a material—it's a canvas of light, depth, and texture. From pristine clarity to intricate patterns, every creation tells a story.

customization options to harmonize with diverse preferences and bathroom layouts. Choose between single or dual door configurations for a tailored fit, and opt for open shelves to display or stow essentials as per your style. With this versatile range, TYDIS ensures a personalized touch, transforming any space into an organized haven that aligns seamlessly with individual tastes and needs

Glass transcends as functional poetry, adding a touch of sophistication to everyday life. Elevate your surroundings with its versatile applications, where form meets function in a seamless embrace of beauty and purpose.
